

Remarks

This Amendment After Final is filed for purposes of correcting minor errors in dependent claims 2, 3, and 18, which resulted from prior amendment to claim 1 (changing the "specifying" step to a "storing" step). It is respectfully submitted that the amendment is simply a correction to minor editing errors, and does not require further searching by the Examiner. The Amendment puts the application in better condition for allowance, and removes from appeal any issue surrounding any possible indefiniteness of claims 2, 3, and 18. Accordingly, it is respectfully submitted that the Amendment After Final be entered.

Conclusion

If for any reason the Examiner feels that a telephone conference would in any way expedite prosecution of the subject application, the Examiner is invited to telephone the undersigned at 408 884 1507.

Respectfully submitted,

Date: March 12, 2008

/John A. Smart/
